

MATHIAS RAT

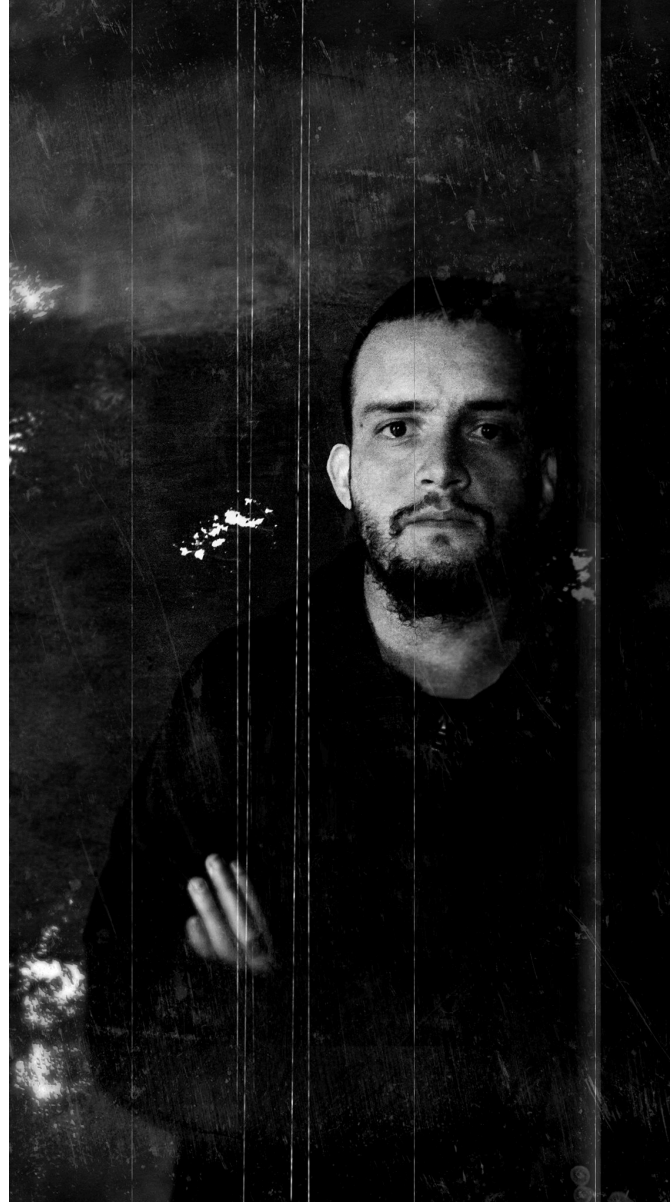

BIOGRAPHY

Mathias Rat is a self-taught artist. The approach on digital art makes him closer to the new visual language. Unreal and eerie pictures take shape as he gazes into the reality around him. His work can be considered as the distorted reflections of an abnormal reality .

The space is a lost empty place where colors and textures of images dance and surround the room , sick dirty shadows disturbing , corrupting and erasing the surfaces sensible to the senses enthralled in changing vortex. The boundaries are fallen: the reality becomes an infinite place ruled by ruins and dream dust.

This is the birth of images, sounds and silence; a vital breath where there are no limits between reality and unreality.

The primordial subjects of his art are unspotted and pure: perfect visages and bodies. Then the changing process of corruption begins and the space becomes another reality where the sight is constantly blinded.

EXHIBITS

04.20.2013 "METAMORFOSI IN ESPOSIZIONE" with Anaiv – NeroFactory (Cosenza)
